THE WORLD RENOWNED 'FIT & FORGET' SOLUTION

This is a joint venture between the Controls & Switchgear Company Ltd., the flagship company of Controls & Switchgear Group, and the world renowned WAGO Kontakttechnik - GmbH of Germany, the world leaders in the field of Cage Clamp Screwless Terminal Blocks for electronic applications. The Company also manufactures Electronic Interface Modules, Input and Output Modules.

WAGO Terminals & Connectors provide the 'Fit & Forget' solution for all electrical connections. Its unique "Cage Clamp System" provides the following advantages over screw type terminals:

Maintenance Free contacts: Once the wire is inserted in the "Cage Clamp", no screw tightening is required throughout the life of the contact.

Gas Light Connections: "Every time" as the wire clamping force is independent of the operators skill.

Vibration and shock resistant terminals tested upto 109g and 2000 hertz in xyz axis. Further, the WAGO range of Electronic Modules provide hassle free solutions for the process controlled industries and manufacturers of microprocessor based equipment.
